II. Proposal for the adoption of FIG Scoring in the JO Program. Jeff Robinson

The idea of going to an FIG scoring program within the JO Program is understood by the gymnastics' community as inevitable. There was a great deal of discussion concerning the pro and cons of the proposal. However at this time there are some primary concerns as listed below

- There have been so many changes within the last year that we should avoid voting on a program that contains areas where there are still questions so as to avoid numerous updates.
- Judging inconsistencies between the compulsory and optional levels

Vote: fails unanimously

Jeff Robinson would like written ideas and feedback within two weeks.
