Meeting called to order by Patti Conner via e-mail on Thursday December 9, 2021.

**Program Committee Meeting Agenda**

**1. Welcome**

All attendees were asked to disclose any actual or potential conflicts of interest based on a review of the agenda.

Nuno and Chelsea had previously indicated a Col with item 2, and recused.

**2. 2022 Assignment Procedures and 2022 World Cup Assignments**

The committee considered the 2022 International Assignments document and agreed in principle.

The committee then considered the current rankings created using the International Assignments process. It was agreed that 2021 VIP Classic should be omitted from the list of competitions considered for ranking due to previous grievances over the results legitimacy, and therefore the Brescia World Cup should also be omitted as it was used as an alternative meet on the same dates.

It was also agreed that the Women’s assignments would not be filled at this time, and that all 2022 Senior-aged JNT and SNT women will have the opportunity to electronically submit routines for verification to be considered for remaining assignments. ToF must be shown, and athletes will be required to hit Total Score 51.0 and DD 12.5 in order to be considered.

**Motion to approve the 2022 Assignment Procedures as submitted, and assign the following athletes to 2022 World Cups:**

<b>Aliaksei Shostak</b>	<b>Choice of 2 World Cups</b>	<b>Ranked in top 3</b>
<b>Jeffrey Gluckstein</b>	<b>Choice of 2 World Cups</b>	<b>Ranked in top 3</b>

- **Motion: Patti**
- **Second: Deanna**
- **Vote: unanimous**

Meeting adjourned.

Meeting reconvened on Tuesday December 14, 2021.

### 3. **Equipment Specs for Meets**

Patti provided updates to this topic, which was tabled at the September retreat. The question is whether hosts not able to meet the current equipment specifications should be allowed to offer meets (especially in-gym meets). It was again agreed in principle that few to no gyms exactly meet full competition specs so exceptions should be allowed, but this should not threaten athlete safety and should follow a formal approval process.

A process has been agreed upon to thoroughly reassess the current equipment specs and amend the R&P to a more realistic version that is still safe:

- For the remainder of the 2021-2022 season, the committee will draft and approve a set of interim modified specifications that will be required to be met by all meet hosts. Any situations outside of these modifications will require an application to the PC for approval in advance of the meet, with approval given if the proposed modification is considered to be still safe. The interim specs will be published and apply immediately.
- For the 2022-2023 season, a working group including equipment personnel will be assembled from January 2022 to create a final version of equipment specifications, keeping in mind the same constraints and requirements and based on best practice and expert opinion. The final equipment specs will be published as part of the 2022-2023 R&P in September 2022.

The committee discussed draft proposed interim modified equipment specs presented by Jacqui and Patti.

#### **Motion to approve the interim modified equipment specifications.**

- **Motion: Chelsea**
- **Second: Nuno**
- **Vote: unanimous**

The interim modified equipment specs will be posted in an updated version of the R&P, available on the [USAG website](#).

Meeting adjourned.
