

# 2022 TOPS TESTING FLOOR

- Physical Abilities will be done via Zoom from September - November 2022
- Skills testing will take place at invitational competitions, Elite national Qualifiers, and selected Nastia Liukin Cup qualifiers across the country. Each state will have the opportunity to host a TOPS qualifier at an invitational competition in their state. The process to determine the invitational will be the responsibility of the State Administrative Committee (SAC).
- No AWARDS for TOPS competitions.
- There is no longer testing for SEVEN (7) year old gymnasts.
- The figures are a GUIDELINE to assist with learning the routines.
- General Faults and Penalties are listed at the end of this document.
- Coaches are allowed to stand near the gymnast (without blocking the view of the tester).
- The figures are a GUIDELINE to assist with learning the routines. There is flexibility within the text of the routines to allow for choices. NOT ALL of the choices are shown in the pictures. When in doubt, follow the written word of the text.
- The evaluation emphasis will be on technique, form, execution, and body shape throughout the major elements.
- When elements are listed as “a. b. c.” etc. it means the gymnast has a choice of which element to perform.
- Additional matting is recommended.
- **ONLY MAJOR ELEMENTS ARE CAPITALIZED TEXT.** All other headings are connections.
- In order to accommodate the performance, the gymnast is allowed to start anywhere on the beam.
- All creative choreography movements should be fluid containing one (1) to three (3) movements. Exception: the sideward sequence must be three (3) traveling movements.
- ONLY one (1) 8” mat may be placed under the high beam.
- Arm positions are to be executed to allow the gymnast to show the best posture to suit her level of flexibility and body composition. There is no deduction for specificity of arm positions as long as good posture is shown and the guidelines below are followed.
  - If an arm position or pathway is not specifically noted in the text, it is optional.
  - Whenever high position arms are indicated, arms may be:
    - Curved overhead (crown) or slightly back with the shoulders pressed down.
    - Straight overhead or pressed back behind the head with the rib cage flat and shoulders pressed down.
    - Straight with the arms pressed back and out sideward in a diagonal line with the rib cage flat and shoulders pressed down.
  - Whenever side-middle position arms are indicated, arms may be:
    - Directly side of the shoulders with the rib cage flat and shoulders pressed down.
    - Slightly above or below and pressed back behind the shoulders with the rib cage flat and shoulders pressed down.
  - Whenever sideward-diagonally-upward position arms are indicated, arms may be:
    - Directly side of the shoulders with the rib cage flat and shoulders pressed down.

- Arms pressed back behind the shoulders with the rib cage flat and shoulders pressed down.
- Slightly above or below and pressed back behind the shoulders with the rib cage flat and shoulders pressed down.
- Whenever the text states to “step,” the proper dance technique is to step through the foot (toe, ball, heel) with the feet turned out slightly.
- The routine may be reversed in its entirety; however, no single element may be reversed, unless indicated by an asterisk (\*).

# NINE / TEN (9/10) YEARS OLD TESTING ROUTINE

1. (\*) **FRONT HANDSPRING TO TWO FEET (0.40), FLYSPRING (0.40) FORWARD SALTO TUCK, PIKE, OR STRETCHED (0.60)** (The illustrations and text only show the use of the FORWARD SALTO STRETCHED.)

From one (1) to three (3) running steps, hurdle with both arms diagonally-forward-upward showing a slightly closed shoulder angle and reach both hands forward and place them on the floor side-by-side, shoulder width apart while kicking the Left leg backward-upward overhead. As the hands contact the floor, forcefully extend through the shoulders creating a powerful backward-upward movement. Rotate the body in a tight stretched position landing on both feet to execute a **FRONT HANDSPRING TO TWO FEET**.

While executing the **FRONT HANDSPRING to TWO FEET**, the goal of the skill is to accelerate and rotate quickly. A large, high block should be avoided. It is acceptable technique to lean both shoulders (planche) over the wrists while activating the backward kick.

**ARMS:** The shoulder angle opens on the post-flight phase of the skill.

(It is NOT required to show an open shoulder angle throughout if using the “planching” technique. The shoulders must be open post-flight.)

**FOCUS:** On the hands throughout with the head neutral.

Upon landing the **FRONT HANDSPRING to TWO FEET**, immediately punch off both feet and reach forward placing both hands on the floor to execute a **FLYSPRING**. As in the Front Handspring, the goal is to accelerate, rotate quickly to create forward momentum.

Upon landing the **FLYSPRING**, immediately punch off both feet.

Choosing one of the three body positions for the **SALTO**:

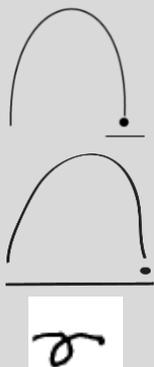

- **TUCK SALTO**: As the body rises, lift the hips upward while inverting the body, rounding the upper back and bending at the knees and hips to achieve a tucked position to execute a **FORWARD SALTO TUCKED**.
- **PIKE SALTO**: As the body rises, lift the hips upward while inverting the body, rounding the upper back and bending at the hips to achieve a piked position to execute a **FORWARD SALTO PIKED**.
- **STRETCH SALTO**: As the body rises, pass through a round upper back position. Invert the body, as the athlete kicks the legs with open hips and straight knees to achieve a stretched position to execute a **FORWARD SALTO STRETCHED**.

Land the **SALTO** on two feet in a controlled demi-plié OR, immediately move /rebound / run forward continuing the forward momentum of the acro series. Regain balance and come to a controlled straight stand.

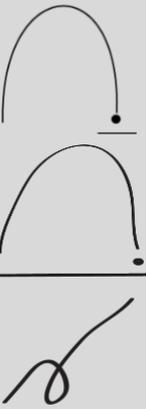

**ARMS**: High on take-off for the **SALTO**. Optional during the **SALTO**. If choosing a “controlled demi-plié” landing, press the arms to side-middle. If choosing to immediately rebound the arms should be high.

Extend both legs to a straight stand.

**ARMS**: Open to sideward-diagonally-upward

## 2. First Optional Choreography transition to the corner *(There are no illustrations for this.)*

Upon completion of the **FORWARD SALTO**, perform an artistic sequence of approximately three (3-4) movements traveling forward or sideward (small turns allowed within the movement) toward the corner to finish in a pose facing down the side of the floor. In the pose, stand on a flat *right* foot with the *left* foot pointed in front on the floor with the arms backward-diagonally-upward.

If reversing the **SWITCH LEAP**, pose with the *right* foot forward into a *right* Forward Chassé.

## 3. Forward Chassé-steps or Run, (\*) SWITCH LEG LEAP (0.40)

(The illustration below only shows the leap using the Forward Chassé.)

### Forward Chassé Entrance into LEAP:

With the *right* foot pointed forward, transfer the weight forward onto the *right* foot (turned out slightly) through 4<sup>th</sup> position demi-plié. Push off the floor with both feet to execute a **Forward Chassé**, closing the *left* foot behind the *right* foot in the air (tight 5<sup>th</sup> position). Land in demi-plié on the *left* leg, with the *right* foot turned out slightly. The *right* leg is pointing down toward the floor.

**ARMS:** Move both arms to side-middle.

Take one (1) long step(s) (or low straight leg run) *right*, in demi-plié, then swing the straight *left* leg forward-upward to a minimum of 45° and push off the floor with the *right* leg. While in flight, dynamically swing the *left* leg backward while simultaneously swinging the *right* leg forward to execute a **SWITCH LEG LEAP** with a minimum of 180° even leg separation in flight. Land on the *right* leg in demi-plié with the *left* leg extended backward passing through a low arabesque position. The emphasis is on good upper body posture with extended arms and legs.

**ARMS:** Optional.

**Run Entrance into LEAP:**

With the *left* foot pointed forward, take two (2) long steps (or low straight leg run) *left, right* in demi-plié, then swing the straight *left* leg forward-upward to a minimum of 45° and push off the floor with the *right* leg. While in flight, dynamically swing the *left* leg backward while simultaneously swinging the *right* leg forward to execute a **SWITCH LEG LEAP** with a minimum of 180° even leg separation in flight.

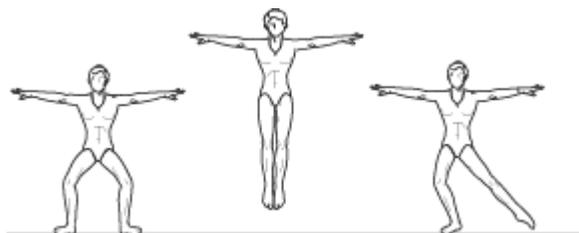

Land on the *right* leg in demi-plié with the *left* leg extended backward passing through a low arabesque position. The emphasis is on good upper body posture with extended arms and legs.

**ARMS:** Optional.

	SWITCH LEG LEAP (180°) (0.40)	Up to 0.10	Bending the lead (front) leg on take-off
		Up to 0.10	Failure to swing front leg a minimum of 45° forward before swinging back
		Up to 0.20	Uneven leg separation

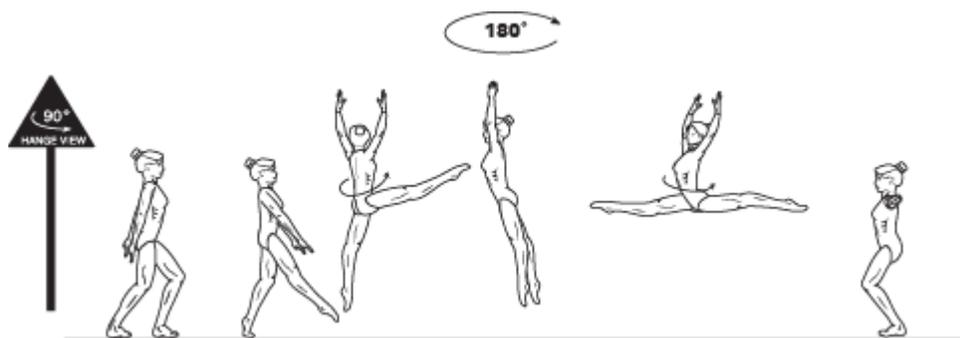

If the **SWITCH LEAP** was reversed, the gymnast must continue reversing the text all the way and including the **TOUR JETÉ**.

**4. Sideward Chassé ¼ (90°) Turn, (\*) TOUR JETÉ (180°) (0.40), Lunge Pose**

While turning 90° *right*, step onto the *left* foot through a 2nd position demi-plié. Push off the floor with both feet to execute a **Sideward Chassé**, closing both feet in the air, heels touching (tight 1<sup>st</sup> position). Land in demi-plié on the *right* leg, with the *left* foot turned out slightly. The *left* leg is pointing down toward the floor.

**ARMS:** On the step, move both arms to side middle and maintain side-middle for the **Sideward Chassé**.

While turning 90° *left*, take a long step forward onto the *left* foot through demi-plié. With squared hips, swing the *right* leg forward-upward to horizontal, while pushing off the floor with the *left* leg. At the height of the leg swing, turn 180° with precision to the *left* to execute a **TOUR JETÉ**. As the 180° turn is

completed, dynamically swing the *right* leg forward and *left* leg backward to achieve a minimum of **180°** leg separation. Land on both feet in demi-plié. The torso remains erect throughout.

**ARMS:** On the forward step, lower both arms sideward-downward to low OR reach backward-downward to low. On the forward leg swing, lift the arms forward-upward to high and open to side-middle on landing.

Extend both legs to finish in a straight stand.

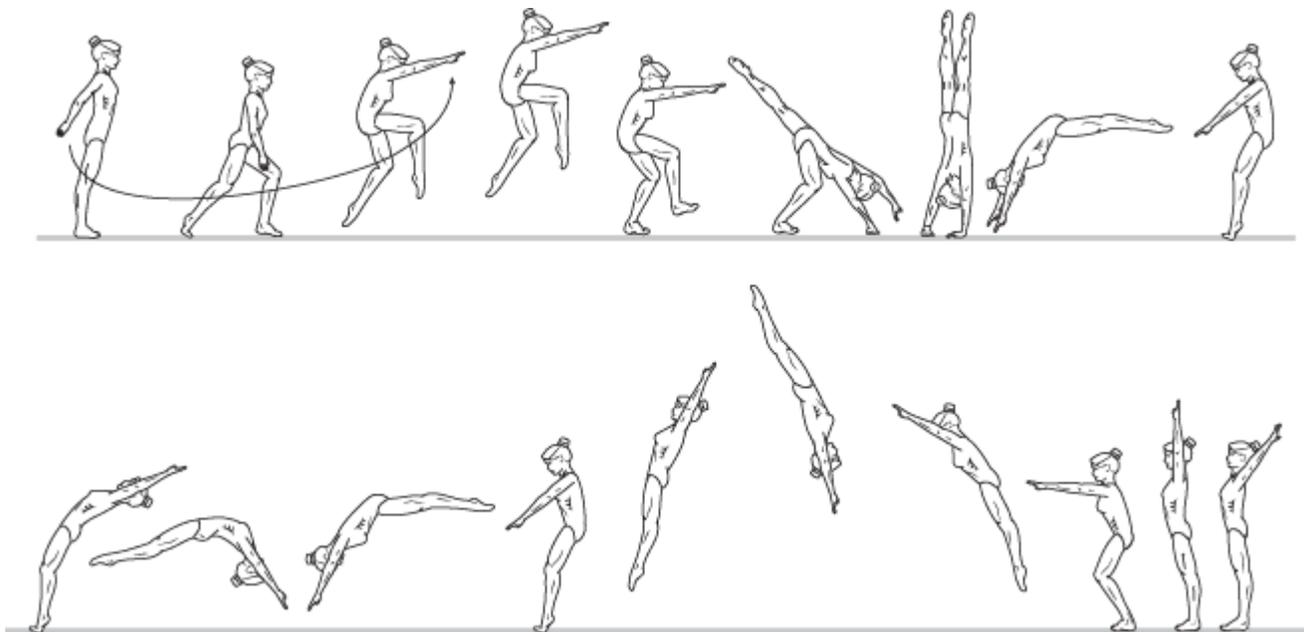

**ARMS:** Open to sideward-diagonally-upward.

	<b>TOUR JETÉ</b> (180°) (0.40)	Up to 0.20	Failure to show squared hips on take-off and precise 180° turn

### 5. Second Optional Choreography transition to the corner, Straight stand (There are no illustrations for this.)

Upon completion of the **TOUR JETÉ, Lunge Pose**, perform an artistic sequence of approximately three (3-4) movements traveling sideward and backward (small turns allowed within the movement) toward the corner to finish in a Straight stand pose in the corner in preparation for the back tumbling pass.

### 6. (\*) ROUND-OFF (0.20), WHIP BACK SALTO (0.40), BACKWARD SALTO STRETCHED (0.60)

From two (2) to three (3) running steps, hurdle with both arms diagonally-forward-upward showing a slightly closed shoulder angle and execute a **ROUND-OFF** to create backward power and acceleration. Immediately punch off both feet reaching back forcefully with the arms to execute a fast rotating **WHIP BACK SALTO**.

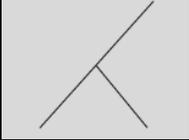

**ARMS:** Diagonally-forward-upward showing a slightly closed shoulder angle on the hurdle and throughout the **ROUND-OFF**. Arms are optional during the **WHIP BACK SALTO**.

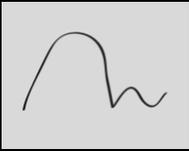

Immediately rebound forcefully backward out of the **WHIP BACK SALTO**. As the body rises, (leaving the floor by vertical) continue to rotate upward and backward as the hips rotate over the head to execute a **BACKWARD SALTO STRETCHED**.

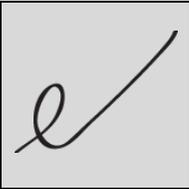

In preparation for the landing, maintain an extended body position to land with the chest upright. Land in demi-plié in a balanced and controlled position (“stick”).

Extend the legs to finish in a straight stand.

**ARMS:** Optional during, in preparation and landing for the **SALTO**. Move to high, then open to sideward-diagonally-upward on finish.

**Arms:** Lift to crown.

To initiate the **FORWARD BODY WAVE**, demi-plié both legs and lower the heels to the floor while simultaneously lowering the torso over the knees contracting in the abdominals.

**ARMS:** Lower to forward-middle-curved.

**FOCUS:** Down.

Begin a supple waving sequential action by releasing the contraction, pushing both hips forward, arching the upper back, and extending the legs to finish in an upright stand (flat or in relevé)

ARMS: In a circular movement, lower both arms downward-backward to low. Continue the circling action backward-upward to finish with both arms in crown.
